* Please see page 02 for more details on manufacturer's on the road (OTR) package.

1 CO₂ figures are obtained under standardised EU test conditions. Driving behaviour as well as other non-technical factors (such as environmental conditions, including weather and traffic) play a role in determining a vehicle's CO₂ emissions. More information is available at www.dft.gov.uk/vca. Other factors including Gross Vehicle Weight, trimline, extra equipment, options and accessories (wheels, tyres, etc.) may change vehicle parameters such as the weight, rolling resistance of the tyres and the aerodynamics and thus influence the CO₂ emissions and driving performance values.

Options.

Paint.

Solid. Candy White, Cherry Red.

Solid. Grape Yellow.
