¹ This brochure relates to vehicles tested according to WLTP technical procedures. Figures shown are for comparability purposes; only compare fuel consumption and CO₂ figures with other vehicles tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles and vehicle load. There is a new test used for fuel consumption and CO₂ figures (known as WLTP). The CO₂ figures shown however, are based on a calculation designed to be equivalent to the outgoing (NEDC) test cycle and will be used to calculate vehicle tax on first registration. For more information please visit <https://www.volkswagen-vans.co.uk/en/about-us/wltp.html> or consult your authorised Volkswagen Van Centre. The CO₂ figures are reflective of the standard specification. Adding options, such as different wheels or tyres may affect the final CO₂ figures. For further information please consult your authorised Volkswagen Van Centre.

Data correct at 11.12.2018. Figures quoted are for a range of configurations (including non-UK) and are subject to change due to ongoing approvals/changes.

* Please click here for more details on manufacturer's on the road (OTR) package.

¹ This brochure relates to vehicles tested according to WLTP technical procedures. Figures shown are for comparability purposes; only compare fuel consumption and CO₂ figures with other vehicles tested to the same technical procedures.

These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles and vehicle load. There is a new test used for fuel consumption and CO₂ figures (known as WLTP). The CO₂ figures shown however, are based on a calculation designed to be equivalent to the outgoing (NEDC) test cycle and will be used to calculate vehicle tax on first registration.

For more information please visit <https://www.volkswagen-vans.co.uk/en/about-us/wltp.html> or consult your authorised Volkswagen Van Centre.

The CO₂ figures are reflective of the standard specification. Adding options, such as different wheels or tyres may affect the final CO₂ figures. For further information please consult your authorised Volkswagen Van Centre.

Data correct at 11.12.2018. Figures quoted are for a range of configurations (including non-UK) and are subject to change due to ongoing approvals/changes.
